EXPERIENCE

2022 – now • Odense, Denmark

Senior Digital Product Designer • Universal Robots

Led incremental improvements on varied 'off-robot' web-products, such as support and training platforms. Worked in a Product-Trio setup and helped to implement a Dual-Track Agile process within the team. Redesigned User Account Creation, increasing conversions and reducing drop-out. Performed Discovery Research, User Tests and led knowledge sharing sessions in the UX team.

2021 • Odense, Denmark

Lead / Head Product Designer • Encodify A/S

Main responsible for the product experience of a complex SaaS platform with over 60.000 users worldwide, leading a small team with two other designers. Introduced Research and User Testing rounds in release cycles and coordinated UX processes, timelines and roadmaps.

2019 – 2021 • Odense, Denmark

Lead Product Designer • Maturix A/S

Designed the company's new flagship product from inception to market launch and helped to manage initial manufacturing. Also created supporting materials such as packaging and manuals.
